
PROVIDE TOILET CUM BATHROOMS FOR BELOW-POVERTY-LINE RURAL FAMILIES

IDRF supports the construction of toilet-cum-bathroom units for poor rural families. These rural sanitation units provide the women and girls with a safe and dignified way to attend to their personal hygiene and free them from the agony, stress, and risk associated with defecation in open unsafe places and bathing in unprotected spaces. The units are fitted with solar lamps. The use of sanitation units in rural areas puts an end to open defecation-related diseases, thus reducing medical expenses and increasing the number of working days for the beneficiaries.

IDRF is planning to construct 100 units in remote villages where government project has reached only 40%. These units are to be provided for families with 3-4 female members in order to save them the embarrassment and inconvenience of using open spaces.

The cost to construct one toilet and bathroom is \$628

We are seeking your support in helping us raise \$62,800 for 100 units.
